

4th edition of the

International Engineering Conference and Exhibition

Theme:

Innovating for a Sustainable Future

 4 - 8 January 2026

 Riyadh International
Exhibition Center

About IECE 2025

The 4th International Engineering Conference and Exhibition (IECE), organized by the Saudi Council of Engineers, is a premier event advancing engineering innovation, excellence, and collaboration across disciplines. Taking place in Riyadh in January 2026, the conference gathers engineers, industry leaders, academics, government officials, and policy makers from around the world to share knowledge, showcase advancements, and explore sustainable engineering practices in line with Saudi Arabia's Vision 2030.

The 4th IECE features a comprehensive program, including ministerial sessions, keynote speeches, technical tracks, workshops, and panel discussions, all focused on transformative engineering solutions and the latest industry trends. An expansive exhibition space will showcase innovative products, services, and technologies, offering companies a unique platform to engage directly with key decision-makers, investors, and influential figures in engineering.

Join us in Riyadh and position your organization at the forefront of engineering innovation. Together, let's shape a future where engineering solutions drive sustainable development, enhance infrastructure, and improve the quality of life.

SCE Board of Directors Chairman

Ahmed Al-Shaikh
**Executive Vice President, Engineering
& Project Management**
SABIC

I am pleased to thank the Saudi Council of Engineers for organizing this conference in a series of conferences, aimed towards searching for appropriate methods to enhance the role of the engineering sector and the profession as a fundamental pillar of economic activity.

I also thank the contributors to the conference, from participants and attendees from the Honorable ministers and their Excellencies from the institutions of the public and private sectors, and the guests of this conference from around the world.

This International Engineering Conference and Exhibition, organized by the Saudi Council of Engineers charts the future of the engineering profession and engineers locally, in the region and internationally. This conference is concerned with building a better tomorrow through this large scientific crowd. Hosted in Riyadh, it will present rich engineering experiences, educate engineers about the issues of the current era, and renew engineering thought in light of what is happening around it in the world.

This International Engineering Conference and Exhibition is a qualitative initiative by the council to add professional and scientific benefit to the engineering sector through the global components presented by the conference, by exchanging experiences and presenting opinions and experiences through a large number of speakers representing a large number of countries, by presenting more than 150+ specialized worksheets.

We know for sure that supporting, promoting and encouraging the engineering sector is important, as it has developed the appropriate legislative and regulatory environment for the practice of engineering work through the Saudi Council of Engineers and overcoming obstacles in front of it.

In conclusion, I hope that the conference will come out with recommendations that are in the interest of the profession and the engineer, to be of assistance in developing the profession for the benefit of the country and its citizens.

Important Dates

Deadline for submitting papers

15 March 2025

Deadline for announcing accepted papers

15 May 2025

Receipt of accepted scientific papers and presentation

15 August 2025

Delivery of Worksheet Summaries)

All abstracts of papers are to be submitted in PDF format and submitted on the website of the International Engineering Conference and Exhibition:

iece.saudieng.sa

Submit a biographical summary of no more than 150 words, including contact details.

A high-resolution image to be included.

The final presentation is uploaded after the abstract is accepted.

The abstracts, images and required files must be uploaded via the conference website:

iece.saudieng.sa

For more information, please contact via e-mail:

conference@saudieng.sa

Abstracts approved by the evaluation committee will be sent via email.

Abstracts will be evaluated based on the following criteria:

- Previous studies
- Reduction of cost and time.
- New technology.

Conference Tracks and Themes

TRACK 1

Civil Engineering

- Structural Engineering Advances
- Geotechnical Innovations
- Smart Cities and Sustainable Urban Development

Architectural Engineering

- Sustainable Building Design
- Saudi Building Codes and Regulations
- Green Architecture and Energy-Efficient Construction

TRACK2

Chemical Engineering

- Process Optimization and Control
- Sustainable Chemical Processes
- Petrochemical Innovations

Environmental Engineering

- Water Resource Management
- Waste Treatment and Sustainability
- Environmental Impact Assessment

TRACK3

Mechanical Engineering

- Fluid Dynamics and Thermodynamics
- Advanced Manufacturing Technologies

Industrial Engineering

- Operations Research and Supply Chain Optimization
- Lean Manufacturing and Automation
- Human Factors and Safety Engineering

TRACK4

Electrical Engineering

- Smart Grids and Power Distribution
- Telecommunications and Signal Processing
- Electrical Machines and Drives

Software and Systems Engineering

- Artificial Intelligence in Engineering
- IoT and Embedded Systems
- Cybersecurity in Engineering Systems

For more information, please contact via e-mail: iece4@saudieng.sa

Why Sponsor?

By sponsoring the 4th IECE, your company gains significant visibility among a diverse, global audience, maximizes brand reach, and demonstrates its commitment to the future of engineering.

Tailored sponsorship packages provide opportunities for premium branding, exhibition placement, and access to exclusive networking events with industry and government leaders.

Diamond
USO 200,000

Platinum
USO 100,000

Gold
USO 75,000

Silver
USO 25,000

Bronze
USO 15,000

Level of Sponsorship

	Diamond	Platinum	Gold	Silver	Bronze
Announcing the sponsor in all available media and through the conference website.					
Placing Company logo on all print media, billboards and advertisements prominently as a sponsor.					
Number of seats on the front row for company representatives	4	4	2		
Exhibition booth space provided	56 sq.m	42 sq.m	28 sq.m	18 sq.m	9 sq.m
Summary about the sponsor and an advertisement on the magazine cover					
Sponsor's logo and profile on the website					
Granting the sponsor a number of free special invitations to attend the conference	80	50	25	10	5
Putting an introductory video about the company for several minutes at the entrance to the conference	2 min.	2 min.	min.	1 min	
Honoring the sponsor at the opening ceremony					

All sponsorship packages include:

- **Economic Benefits:** Exhibition space, delegate passes, VIP passes, etc
- **Branding Online:** (including pre-event), onsite, special announcements
- **VIP access:** VIP car park, VIP entrance, VIP seating arrangements, VIP tables, VIP lounge, VIP luncheon access
- **Access:** Delegates list, meeting facilities, etc.
